Sustainable Sourcing Statement

As a manufacturer, eGauge Systems is committed to an ethical and sustainable supply chain. eGauge does not directly source or process conflict minerals, such as those listed in the Dodd-Frank Wall Street Reform and Consumer Production Act, Section 5012. This includes cassiterite (tin), columbite-tantalite (tantalum), wolframite (tungsten) and gold or their derivatives; or any other mineral or its derivatives financing conflict in the Democratic Republic of the Congo or an adjoining country.

The specific minerals listed above may be contained in our products in the form of solder or as part of components used in assembly. As part of our responsible due diligence, we have made our best efforts to source components from reputable vendors and based on the information we've received, we declare that our products and their components contain minerals sourced from conflict-free zones.
