

eGauge Powered Enclosure Kit

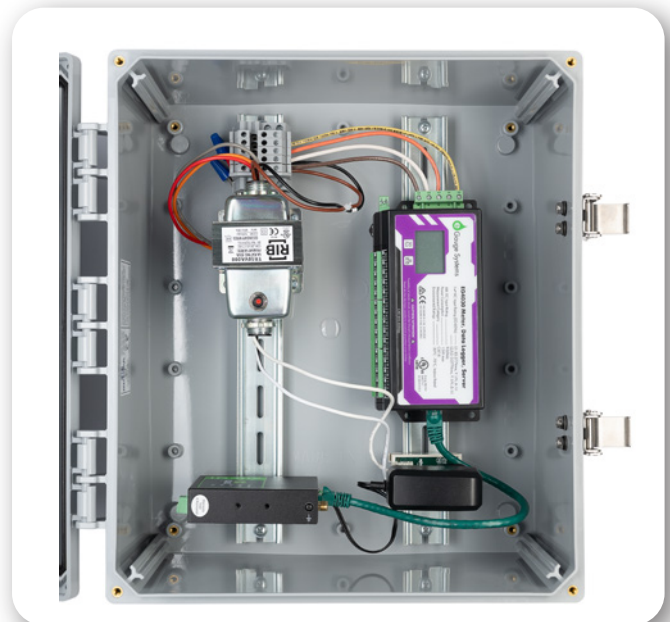

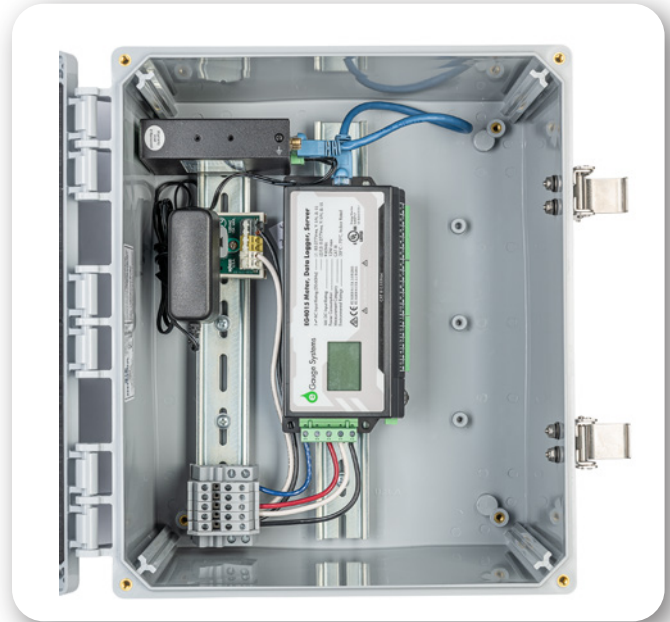

Models: PEK-120, PEK-120XL, PEK-277, PEK-277XL

The Powered Enclosure Kit is designed for installation of the eGauge in combination with one of several communication protocol devices. The kit comes with components that complement the eGauge main unit, decreasing installation time and reducing complexity.

Models available for: 3p/4w 120/208vac, 1p/3w, 120/240vac and 3p/4w 277/480vac. It includes everything you need including DIN rails and a mounting kit for any eGauge 4 series energy meter. The enclosure is NEMA 4X/IP66 rated.

Included Hardware

- 1x Polycarbonate Hinged Enclosure
- 1x Power Distribution Block
 - 1x Terminal Cover Plate
 - 2x Terminal End Stops
 - 5x Terminal Blocks
- 1x Wire Set (15' of each color)
